This application is a continuation-in-part of United States Serial No. 09/038,243, filed on March 11, 1998. This earlier application is relied upon for the filing date of the present continuation-in-part application, pursuant to 35 U.S.C. §120. The art being cited includes art which has previously either been submitted to the United States Patent and Trademark Office by Applicants or that has been cited by the Examiner during the prosecution of the parent application. "A copy of any patent, publication, or other information listed in an information disclosure statement is not required to be provided if it was previously cited by or submitted to the Office in a prior application, provided that the prior application is properly identified in the statement and relied on for earlier filing date under 35 U.S.C. §120." 37 C.F.R. §1.98(d). Prior art submitted by Applicants or cited by the Examiner in the parent application can be found in the file wrapper of the parent application and, therefore, copies of those references are not enclosed.

The Applicants do not admit that any of the information they have provided is necessarily prior to their invention but rather it is information of which they are aware and believe should be provided to the Office in fulfillment of the duty of disclosure. Any question that may arise regarding the priority of a specific document shall be resolved during prosecution.

The information provided herewith is in the English language. The referenced art is being cited for the express purpose of providing the Patent and Trademark Office with the opportunity to make an evaluation and to arrive at an independent assessment of materiality of each document, if any, to the examination of this application. The Examiner is requested to disregard any marking on the enclosed copies of the cited documents. Markings on the enclosed copies should not be regarded as necessarily pointing out the portions of the subject documents regarded by the Applicants as relevant to the subject application. Applicants respectfully request that the information cited be made of record in the subject case.

The Information Disclosure Statement submitted herewith is being filed contemporaneously with the filing of the present continuation-in-part application. No certification or fee is due with this filing of the Information Disclosure Statement. 37 CFR 1.97(b).
